

Diesel Generator Set

This diesel generator set provides a reliable source of electrical power. It is suitable for various applications, ensuring continuous operation during outages and in areas without grid access.

ADDITIONAL IMAGES

Overview

Robust, self-contained power solution suitable for industrial and commercial applications.

Reliable Power Generation Solutions

These diesel generator sets are engineered for versatile power applications, ranging from primary power sources in remote areas to critical backup systems for commercial and industrial facilities. Designed with a focus on durability and performance, the units feature robust enclosures that provide weather protection and noise reduction, making them suitable for sensitive environments like hospitals and hotels. Each unit is equipped with advanced control systems to ensure stable output, operational safety, and ease of maintenance.

Technical Specifications

Heavy-duty skid-mounted assembly featuring engine, alternator, and monitoring instrumentation.

Power Output Range

8 kW

Minimum Power

3000 kW

Maximum Power

KVA Range

10 kVA

Minimum KVA

3750 kVA

Maximum KVA

Product Features

Mobile generator set equipped with a telescoping mast for illumination and portable power.

Available Configurations

Diesel Generator, Gas Generator, Marine Generator, Lighting Tower, Trailer Generator

Operational Features

Soundproof unit designed for low-noise operation, featuring integrated control systems and ventilation.

Safety & Protection

- Four-protection control system
- Multiple warning functions
- Emergency stop button
- Weatherproof enclosure
- Rain-ingress prevention shutters

Noise Reduction

Yes

Market Reach

Global Distribution

Imported by over 150 countries across Europe, Africa, South America, Southeast Asia, and West Asia.
