Product Overview

Industrial Grade Diesel Generator

This silent diesel generator set is engineered for reliable, continuous power supply in industrial, commercial, and residential settings. Featuring a robust sound-attenuated enclosure and high-efficiency insulation, it ensures quiet operation suitable for noise-sensitive environments. The unit is built for durability with a galvanized steel canopy and a heavy-duty carbon steel base frame, designed to withstand demanding operational conditions.

Key Performance Metrics

Noise Level

85 dBA

Noise Level

Power Range

25-2000 KVA

Construction & Materials

Canopy Construction

- 2mm Galvanized steel plate
- Electrostatic spraying process
- Outdoor powder coating

Base Frame Material

10mm Carbon steel

Fastener Material

Stainless steel (bolts, nuts, hinges)

Sound Attenuation

Insulation Specifications

- High efficiency mineral wool
- 5.0mm thickness
- Stainless steel punching plate covering

Muffler Type

Customized built-in high performance residential muffler

Standard Equipment

Standard Accessories

Battery, Battery switch, Battery charger

Handling Features

Top lifting points, Forklift pockets, Eyelets
