Product Overview

Industrial-Grade Power Solution

This diesel generator set offers a reliable and robust power generation solution engineered for consistent performance in demanding environments. Equipped with an advanced control interface and a high-efficiency alternator, it ensures stable energy output for prime, standby, or emergency backup needs. The unit features comprehensive safety protections, including automatic shutdowns for low oil pressure, high temperature, and over-speed conditions, providing long-term operational peace of mind.

Construction & Design

Design Features

- Heavy-duty steel base frame
- Robust diesel engine
- High-efficiency alternator
- Integrated radiator for cooling
- Advanced air intake system
