Overview

Advanced Power Generation

The 240 series diesel generator set is engineered based on advanced domestic and international technology standards, ensuring high-level performance and reliability. Designed for versatility, this unit is capable of operating on both light and heavy diesel oil, making it adaptable to various fuel supply environments. Its robust construction and sophisticated control systems make it an ideal solution for industrial, commercial, and emergency power backup requirements.

Technical Specifications

Engine Series	240 Series
Fuel Compatibility	Light Diesel Oil, Heavy Diesel Oil

Features

Protection & Safety

- Automatic Voltage Regulation (AVR)
- Over-speed Protection
- Low Oil Pressure Shutdown
- Comprehensive Cooling System

Construction Highlights

Soundproof Container • Vibration Isolators • Modular Design • Heavy-Duty Base Frame
