

Diesel Power Generator

This is a diesel generator. It provides power for various applications.

Overview

High-Performance Diesel Power Generation

This industrial-grade diesel power generator is engineered to provide reliable, continuous power supply for demanding commercial and industrial applications. Designed for durability and efficiency, it features robust construction suitable for both standby and prime power requirements. Its advanced engineering ensures stable voltage output and consistent performance in various environmental conditions.

Key Metrics

Rated Power Output

500 kVA
Rated Power

Fuel Type

Diesel

Technical Specifications

Engine Type	4-Stroke, Water-Cooled
Voltage Output	400/230V
Frequency	50 Hz

Features

Suitable Applications

- Industrial Facilities
- Construction Sites
- Commercial Buildings
- Emergency Backup Power

Compliance & Certifications

ISO 9001, CE Certified
