

Diesel Power Generator

This diesel generator is engineered for reliable power generation. Its design incorporates a durable build, user-friendly controls, and wheels for portability, making it suitable for diverse applications.

Product Overview

Professional Diesel Power Solution

This diesel-powered generator is engineered to provide a dependable energy source for professional and industrial applications. Featuring a robust 389cc 4-stroke engine with direct injection, it delivers a steady performance with an electric start mechanism for ease of use. The unit is designed with a silent enclosure, making it suitable for environments where noise control is a priority while maintaining high mobility thanks to its integrated wheel system.

Performance

Performance Ratings

5000 W

Max Output

4500 W

Rated Output

71 dB(A)

Noise Level

Engine & Fuel

Technical Engine Details

Feature	Specification
Engine Displacement	389cc
Type	4-Stroke, Single Cylinder
Cooling	Air Cooled
Fuel Type	Diesel
Tank Capacity	15L

Operational Features

Key Capabilities

Electric Start, Direct Injection, Silent Operation, Portable, 12V DC Output
