

Diesel Power Generator

This is a diesel generator. It provides reliable power for various applications.

Overview

Reliable Power Generation

This diesel power generator is engineered for consistent and dependable energy output in demanding environments. Designed with industrial-grade components, it ensures stable performance for both primary and backup power applications. Its robust construction makes it an ideal solution for construction sites, remote facilities, and emergency power requirements.

Technical Specifications

Rated Power Output

5 kW

Rated Output

Engine Type	Single-cylinder diesel
-------------	------------------------

Features

Key Features

- High-efficiency single-cylinder engine
- Durable frame construction
- Integrated control panel
- Designed for continuous operation

Compliance

Certifications	CE, ISO 9001
