Overview

Heavy-Duty Diesel Cleaning Power

This diesel-powered high-pressure washer is engineered for demanding industrial, commercial, and agricultural cleaning tasks. Built on a durable frame with pneumatic tires, it offers exceptional maneuverability across various terrains while delivering consistent, high-pressure performance. Equipped with a self-priming pump and multiple nozzle options, this unit provides the versatility needed to tackle stubborn dirt, grime, and residues effectively.

Performance Metrics

Maximum Pressure

3600 PSI

Max Pressure

Model Variant Pressure

2800 PSI

Technical Specifications

Power Source	Diesel Engine
Model Number	15D28-7A

Features

Key Features

- Self-priming pump for external water intake
- Durable frame with pneumatic tires
- Integrated detergent tank
- Trigger gun with safety lock
- Multiple nozzle spray patterns

Applications

Ideal For

Industrial Cleaning, Commercial Use, Agricultural Tasks
