

# Diesel Powered Tractor with Enclosed Cabin

This diesel-powered tractor is designed for light-duty towing and hauling applications. It features a fully enclosed cabin for operator comfort and protection.

## Overview

### Industrial Diesel Tractor

This compact diesel-powered tractor is engineered for efficient light-duty towing and hauling tasks within demanding industrial environments. It features a fully enclosed cabin to ensure operator comfort and protection during operation in warehouses, factories, and airports. With a robust chassis and durable tires, it provides reliable performance for loads ranging from 1 to 1.5 tonnes.

## Performance

### Towing Capacity

**1.5 tonnes**

Max Capacity

### Power Source

Diesel

## Features

### Cabin Type

Fully Enclosed

### Suitable Environments

Warehouses, Factories, Airports

## Equipment

### Standard Equipment

- Headlights
- Taillights
- Steering Wheel
- Robust Chassis
- Durable Tires
