Overview

Reliable Silent Power Generation

This air-cooled diesel generator set is engineered for consistent and reliable power output, suitable for various professional and noise-sensitive applications. With a robust 10HP engine, it delivers 4,800 watts of running power and a peak of 6,500 watts to handle demanding starting loads. The unit is equipped with essential monitoring and safety features, including an oil alert system, circuit breakers, and versatile AC/DC output options.
