

Diesel Water Pump Set

This diesel water pump set is a robust and reliable solution for high-volume water transfer applications. Designed for demanding environments, it provides consistent performance for irrigation, construction, and emergency response scenarios.

Overview

High-Performance Diesel Water Pump

The CGP40 diesel water pump set is a robust and reliable solution engineered for high-volume water transfer applications. Powered by a durable diesel engine, it is designed for demanding environments where consistent performance is critical. Featuring a sturdy protective frame for enhanced portability, this pump is an ideal choice for irrigation, construction, and emergency response scenarios requiring dependable operation.

Technical Specifications

Model Number	CGP40
Power Source	Diesel Engine

Applications

Primary Applications	Irrigation, Construction, Emergency Response, Water Transfer
----------------------	--

Design Features

Design Highlights

- Sturdy protective frame
- Enhanced portability design
- Easy maintenance access
- Long-term durability
