

# Diesel Water Pump Set

This diesel water pump set is designed for efficient water transfer. Its durable diesel engine ensures reliable performance for demanding water management.

## Product Overview

### Efficient Water Management

The ZSH80P diesel water pump set is a high-performance solution designed for reliable agricultural and industrial water transfer. Equipped with a powerful ZC178FA/ZC178FAE series diesel engine, this unit ensures consistent operation for irrigation and drainage tasks. Its compact design, protected by a sturdy frame, facilitates easy handling while providing the durability required for demanding environments.

## Performance Metrics

### Key Performance Indicators

**4 kW**

Rated Power

**60 LPH**

Max Flow

**26 m**

Max Lift

## Technical Specifications

### Detailed Specifications

Feature	Value
Engine Model	ZC178FA/ZC178FAE
Rated RPM	3600
Suction Time	110 s/5m
Starting Method	Handle/Electrical
Net Weight	45 kg
Dimensions (LxWxH)	540x440x515 mm
