Overview

Versatile Power and Welding Solution

This diesel welder generator is engineered for demanding environments such as construction sites and workshops, combining robust welding capabilities with reliable power generation. Housed in a durable, silent-running enclosure, it provides protection from the elements while minimizing operational noise. Its compact and portable design ensures easy transport and setup, making it an essential tool for mobile power and on-site repair tasks.

Technical Specifications

Key Performance Metrics

50 Hz
Frequency

6 kVA
Rated Output

Certifications

CE • ISO 9001

Welding Features

Welding & Generator Set, On-site Repair Ready

Design and Build

Suitable Applications

- Construction Sites
- Workshops
- Mobile Power Needs
- On-site Repairs

Enclosure Type

Silent / Sound-dampened

Portability

Yes
