

Digital Alarm Clock Radio with Sunrise Simulation

This digital alarm clock radio has a large LCD display showing the time, date, and radio frequency. It features a sunrise simulation, gradually increasing light to wake you up gently, and also functions as an FM radio.

Product Overview

Smart Sunrise Wake-Up Experience

This digital alarm clock radio combines timekeeping with advanced sunrise simulation technology to improve your morning routine. By gradually increasing light intensity, it mimics natural dawn to help users wake up feeling refreshed and alert. Integrated with a clear FM radio tuner and essential backup features, this device is designed to be a reliable and versatile bedside companion.
