

Digital Anemometer

This microprocessor-based digital meter is designed for precise physical measurements. It features a clear digital display, multiple function buttons, and LED indicators for SL and Leq status.

Overview

Precision Digital Anemometer

The SL-5868 is a high-performance, microprocessor-based digital meter engineered for precise physical measurements. Designed for reliability and ease of use, it features a clear digital display and comprehensive control options for data logging and analysis. This versatile instrument is an essential tool for professionals requiring accurate sound level and environmental monitoring.

Technical Specifications

Device Features

- Microprocessor-based design
- Digital display
- Data logging capabilities
- Hold and Memo functions
- LED status indicators for SL and Leq

Control Interface

- Function
- Power
- Time
- Hold/Memo

Model Number	SL-5868
Measurement Modes	A-Weighting, C-Weighting, Lin/Fit, Slow Mode
