

Digital Bathroom Scale with Anti-Slip Platform

This digital bathroom scale features a rubber finished platform with an anti-slip surface for safety. It has a maximum capacity of 180kg and displays the weight on an LCD screen.

ADDITIONAL IMAGES

Overview

Professional Grade Digital Bathroom Scale

This digital bathroom scale is designed for safety and precision, featuring a rubber-finished anti-slip platform and a low center of gravity to prevent rollover. It offers a high capacity of 180kg with versatile unit switching between kilograms, pounds, and stones to suit international market requirements. Equipped with high-precision strain gauge sensors and a specialized Mami & Baby weighing mode, it provides accurate and convenient tracking for the whole family.

Performance & Capacity

Weight Specifications

180 kg

Max Capacity

100 g

Graduation

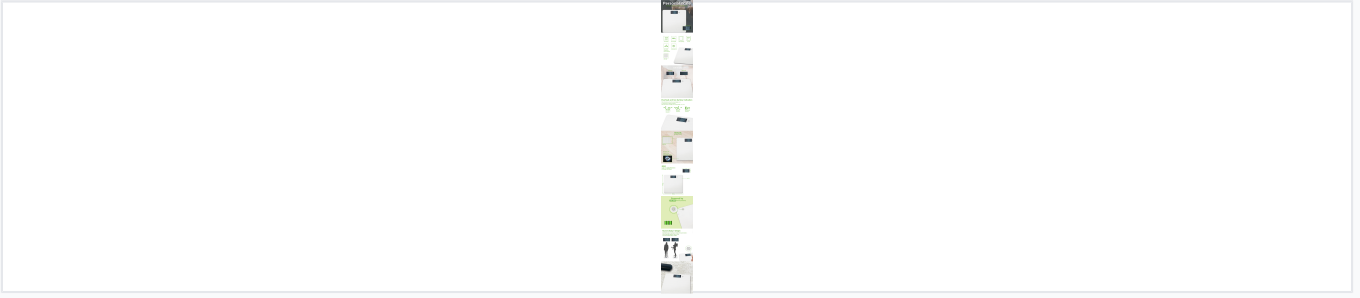

396 lb

Capacity

Design & Build

Platform Finish	Rubber finished platform with anti-slip surface
Safety Design	Anti-slip surface, Low center of gravity, Fillet grinding, Rollover prevention
Scale Dimensions	300 x 300 x 21 mm

Display & Interface

Detailed view of the LCD interface, safety design, and specialized weighing modes.

System Notifications

Code	Meaning
Lo	Low battery indication
oL / Err	Overload indication

Display Type	LCD
LCD Size	80 x 40 mm

Functionality

Smart Functions

- Step-on activation
- Auto-power-off
- Mami & Baby's Weight computation mode
- High precision strain gauge sensor technology

Power Supply

Battery Requirement	3 x 1.5V AAA lithium batteries
