Overview

Professional Anti-Slip Digital Scale

This high-precision digital bathroom scale is designed for safety and accuracy in professional and personal health tracking. It features a specialized anti-slip surface and a low center of gravity to prevent rollover, ensuring maximum stability during use. The invisible LED display provides clear, instant readings while maintaining a sleek, modern aesthetic suitable for any environment.

Key Performance Metrics

Performance Highlights

180 kg

Max Weight Capacity

300 mm

Platform Width

Technical Specifications
