

Digital Bathroom Scale with Body Composition Analysis

This digital bathroom scale uses a high strain gauge sensor for precise weight readings. It also measures body fat percentage, body water percentage, muscle mass, BMR, bone mass, and BMI, supporting up to 10 users.

ADDITIONAL IMAGES

Overview

Advanced Body Composition Analysis

This digital bathroom scale utilizes BIA biometric technology and four high-precision sensors to provide a comprehensive view of your health. It tracks key metrics including body fat, muscle mass, and BMI, supporting up to 10 unique user profiles for family-wide use. The innovative weight trend color light indicator provides immediate visual feedback on weight changes compared to your previous measurement.

Body Analysis Features

Measurement Capabilities

Body Weight, Body Fat %, Body Water %, Muscle Mass, BMR, Bone Mass, BMI

Visual Indicators

The large LCD display features a color-coded weight trend indicator for instant progress tracking.

Weight Trend Light System

Light Color	Weight Change Condition
Red	Increase of more than 0.5kg
Green	Difference within +/- 0.5kg
Blue	Decrease of more than 0.5kg

Technical Specifications

Scale Size	319 x 319 x 24 mm
LCD Display Dimensions	93 x 77 mm
Sensor Type	4x High-precision strain gauge sensors

Power & Operation

Supported Units

- kg
- lb
- st

Battery Requirements	3 x AAA Lithium batteries
