Overview

Advanced Body Composition Analysis

This digital body fat scale is a comprehensive fitness partner designed for professional-grade health tracking. Utilizing Bioelectrical Impedance Analysis (BIA) technology, it provides deep insights into body composition beyond simple weight measurement. With support for up to 10 user profiles, it is an ideal solution for multi-user environments or health-conscious families.

Key Performance Metrics

Key Performance Metrics

180 kg

Max Capacity

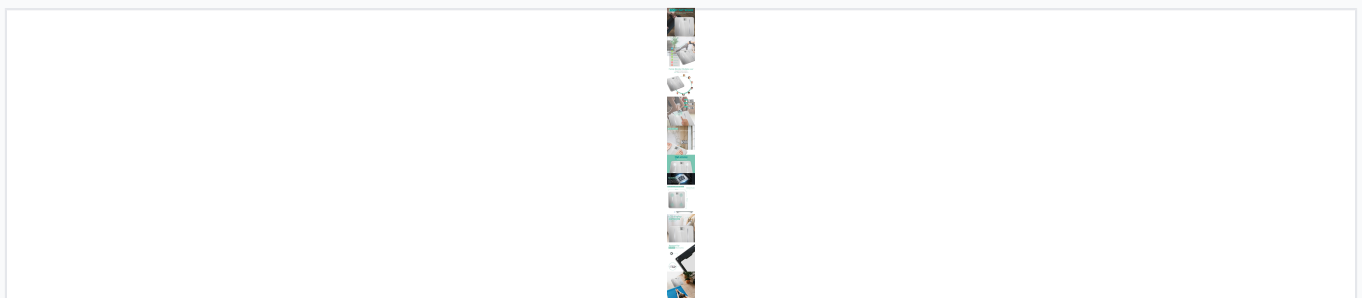

10 Profiles

User Memory

21 mm

Profile Height

Body Analysis Features

Comprehensive body analysis including body fat, muscle mass, and BMI tracking using BIA technology.

Measured Parameters

Body Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, BMI, Kcal (BMR)

Technical Specifications

Dimensions	300 x 300 x 21 mm
Sensor System	High-precision strain gauge sensor system
Measurement Technology	Bioelectrical Impedance Analysis (BIA)

Display & Interface

Display Type	LCD
LCD Dimensions	40 x 80 mm

Power & Operation

Operating Features

- Step-on automatic power on
- Automatic power off to conserve battery
- P0-P9 user memory storage
- Barefoot electrode contact sensing

Power Supply	2x CR2032 Lithium Batteries
