

# Digital Blood Pressure Monitor for Home Use

This electronic blood pressure monitor is designed for home use. It features a digital display for systolic and diastolic pressure readings, as well as pulse rate.

## Overview

### Professional Home Monitoring

This electronic digital blood pressure monitor is designed for reliable home health tracking. It provides clear, accurate readings for systolic and diastolic pressure, alongside pulse rate monitoring. With its user-friendly interface and integrated memory storage, it allows users to effectively track cardiovascular trends over time.

## Key Metrics

### Monitored Vital Signs

**118 mmHg**  
Systolic Pressure

**78 mmHg**  
Diastolic Pressure

**70 bpm**  
Pulse Rate

## Device Features

### Core Functionality

- Digital display for clear reading
- Integrated memory storage for trend tracking
- Comfortable arm cuff included
- User-friendly interface

### Primary Usage

Home Use • Cardiovascular Health
