Product Overview

Smart Health Monitoring

This digital body composition scale combines precision weighing technology with a playful cartoon design, making it a perfect addition to any modern household. It utilizes BIA Biometric Technology and four high-precision sensors to track over 10 vital body health indicators. Seamlessly integrating with the Dr. Weight mobile app via Bluetooth, it provides comprehensive data analysis and supports multi-user tracking for the whole family.

Technical Specifications

Maximum Capacity	180 kg
Division	0.1 kg
Platform Dimensions	288 x 238 x 25 mm
Display	Inverse LCD (Black background, white digits) with backlight
Connectivity	Bluetooth 4.0
Power Requirements	4 x AAA batteries (included)
