Overview

Advanced Body Composition Analysis

This digital body composition scale utilizes high-precision strain gauge sensors and BIA (Bioelectrical Impedance Analysis) technology to provide comprehensive health insights. Designed for versatility and convenience, it supports up to 10 individual user profiles, making it an excellent choice for family health monitoring. The sleek, durable tempered glass platform combines a golden size design with a clear LCD interface for an intuitive user experience.

Measurement Capabilities

| | |
|-----------------|---|
| Measured Values | Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, KCAL, BMI |
|-----------------|---|

Technical Specifications

| | |
|---------------------|---------------------------|
| Maximum Capacity | 180 kg |
| Division | 100 g |
| Platform Dimensions | 300 x 300 x 21 mm |
| LCD Display Size | 30 x 73 mm |
| Power Source | 1x CR2032 Lithium Battery |

Features

Detailed view of the measurement capabilities including BIA technology and user profile memory.

Smart Features

- Step-on technology
- Auto-off function
- Overload indication
- Low battery indication

Construction

6mm Tempered Glass • High Strain Gauge Sensor

User Memory

10
