Overview

Comprehensive Health Monitoring

This digital body composition scale provides a comprehensive health analysis, tracking key metrics like BMI, body fat, muscle mass, and bone mass. Designed for precision, it features a durable 6mm tempered glass platform and high-accuracy strain gauge sensors. With support for up to 10 user profiles, it is an ideal tool for family health tracking and fitness monitoring.

Measurements & Performance

High-precision BIA technology and large LCD display for clear health metrics.

Capacity & Precision

180 kg Max Capacity	100 g Division
-------------------------------	--------------------------

Supported Measurements	Weight, BMI, Body Fat %, Body Water %, Muscle Mass, Bone Mass, KCAL
User Profiles	10 users

Design & Build

Scale Dimensions	300 x 300 x 21 mm
Platform Material	6mm Tempered Glass
Display Specifications	LCD Display (30 x 73 mm)

Features & Power

Key Features

Step-on Technology • Auto-off • Overload Indication • Low Battery Indication

Supported Units

- KG
- LB
- ST

Power Requirements	1 x CR2032 Lithium Battery
