Product Overview

Comprehensive Health Monitoring

This advanced digital body composition scale is designed for precise personal health tracking, offering measurement of seven critical body metrics including weight, body fat, water, muscle mass, bone mass, and calories. Built with a high-precision strain gauge sensor system, it ensures accurate readings on a durable stainless steel and tempered glass platform. With support for up to 10 user profiles, it is an ideal solution for family-wide fitness monitoring.

Technical Specifications

High-precision scale featuring comprehensive body composition analysis and multi-user memory support.

Maximum Capacity	180 kg
Measurement Increment	100 g
Platform Dimensions	300 x 300 x 21 mm
Display Size	30 x 73 mm
Power Supply	3 x AAA batteries

Features

Smart Features

- Auto Step-On
- Auto-Off
- Overload Indication
- Low Battery Warning

Metrics Measured

Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, KCAL, BMI

User Capacity

10
