Overview

Advanced Body Composition Monitoring

This digital body fat and hydration scale offers a comprehensive solution for personal health tracking, utilizing bioelectrical impedance analysis (BIA) to measure body fat, muscle, and hydration percentages. Designed for convenience and longevity, it features a built-in rechargeable battery that provides two months of power from a single two-hour charge. The scale combines a sleek 6mm tempered glass platform with a high-precision sensor system, capable of supporting up to 180kg.

Key Metrics

Maximum Capacity

180 kg

Max Capacity

400 lb

Max Capacity

Technical Specifications

Measurement Precision	0.05 kg
Division Increment	50g / 0.1lb
Power Source	Rechargeable battery (3.7V)
Battery Life	2 months (after 2-hour charge)
LCD Display Size	74x35.6mm

Measurement Ranges

Measurement Ranges

Metric	Range
Body Fat	4.0 - 45.0%
Body Water	37.8 - 66.0%

Features & Usability

Memory Capacity	12
User Modes	Adult, Child (Age 10-100)
Platform Material	6mm Tempered Glass
