

Digital Caliper

This digital caliper provides precise measurements for a variety of applications. It features a large LCD display and switchable mm/inch reading for ease of use.

Product Overview

Precision Digital Calipers

This range of high-precision digital calipers offers versatile measurement solutions for professional, industrial, and educational applications. Available in durable stainless steel with hardened, finely ground jaws or lightweight carbon fiber composite, these tools ensure accurate readings in various environments. Featuring large, clear LCD displays and intuitive controls, they provide essential functions like mm/inch conversion and zero-setting at any position.

Technical Specifications

Available Sizes

- 4 inch
- 6 inch
- 8 inch
- 12 inch

Measurement Systems	Metric (mm), Imperial (inch), Fractional
Resolution	0.005 mm
Auto Power Off	5 min

Features & Functions

Advanced Measurement Functions

ABS (Absolute/Relative) • HOLD • TOL (Tolerance) • MODE (Min/Max)

Construction Materials

- Hardened Stainless Steel
- Carbon Fiber Composite
- Metal Housing

Environmental Protection	IP67 (Water and coolant proof)
