

Digital Caliper with LCD Display

High-precision digital caliper for accurate measurements. It features a clear LCD display for easy reading and durable construction for long-lasting use.

Product Overview

High-Precision Measurement Solution

This high-precision digital caliper is designed to provide accurate measurements for professional engineering, machining, and woodworking applications. It features a clear LCD display for immediate and easy readings, supporting both metric and imperial units. The durable construction ensures long-lasting reliability in demanding work environments.

Key Features

Application Areas	Engineering, Machining, Woodworking, DIY Projects
-------------------	---

Technical Details

Units Supported

- Metric
- Imperial

Display Type	LCD
--------------	-----

Included Accessories

Protective Case	Yes
