Product Overview

Precision Measurement Tool

This digital caliper is engineered for high-precision dimensional measurements of mechanical parts. Constructed from hardened stainless steel, it ensures durability and accuracy in demanding environments. The device features a clear LCD display for easy reading and supports seamless switching between metric and imperial units.

Technical Specifications

Key Features

- LCD Display
- Zeroing Function
- Unit Selection
- On/Off Power Control

Material	Hardened Stainless Steel
Measurement Units	Metric (mm), Imperial (in)

Certifications & Compliance

Certifications

CE

Packaging & Storage

Storage Case	Protective metal casing with custom-molded compartments
