

Digital Camera Battery NB-4L 3.7V 760mAh

This is a high-performance lithium-ion battery pack for digital cameras. It features a voltage of 3.7V and a capacity of 760mAh.

Product Overview

High-Performance Camera Power

This lithium-ion battery pack is engineered to provide reliable and consistent power for digital cameras requiring the NB-4L battery type. Designed for extended use, it ensures your device stays powered during critical shooting moments. Its compact and efficient Li-ion chemistry makes it an ideal replacement or spare power source for professional and casual photography needs.

Technical Specifications

Capacity

760 mAh

Capacity

Battery Chemistry	Lithium-ion (Li-ion)
Voltage	3.7 V
Item Number	K-NB4L
