Overview

Professional Carbon Monoxide Detection

This digital carbon monoxide alarm provides continuous, reliable monitoring to protect living and working spaces from the dangers of CO gas. Featuring an electrochemical sensor and EN50291 approval, it delivers both audible and visual alerts to ensure rapid response to potential leaks. Designed for ease of use, it includes a clear LCD display and simple mounting options for residential or commercial environments.

Technical Specifications

Detected Gas	Carbon Monoxide
Sensor Technology	Electrochemical
Sensor Life	7 years
Working Voltage	DC 3V

Performance

Alarm Sound Level

85 dB

Alarm Sound

Compliance Standards	EN50291, BSI Approved
----------------------	-----------------------

Environmental

Operating Temperature	-10°C to 50°C
Humidity Tolerance	<95% RH

Features

Key Features

- LCD Display for CO concentration
- Visual indicators for Alarm, Fault, and Power
- Peak-level/backlight button
- Test/Reset button
- Wall or ceiling mountable
