Overview

Efficient Ceramic Heating Solution

This tower-style digital ceramic space heater provides rapid and effective warming for personal or office environments using advanced PTC technology. Designed with user convenience in mind, it features a clear LED temperature display, remote control operation, and an adjustable timer up to nine hours. With its oscillation function and multiple heat settings, it ensures consistent heat distribution while maintaining a compact, modern aesthetic.

Technical Specifications

Electrical Performance

2000 W

Maximum Power

220 V

Voltage

50 Hz

Frequency

Heating Modes

- Low: 1000W
- High: 2000W

Features & Safety

Operating Features

- LED Digital Display
- 9-Hour Programmable Timer
- Automatic Oscillation
- Remote Control Operation

Safety Compliance

Thermal Cut-out, Overheat Protection, Tip-over Switch
