

Digital Color CCD IP Surveillance Camera

This high-resolution digital color CCD IP camera is designed for surveillance and monitoring applications. It features a standard lens mount and is designed for robust deployment in various environments.

Overview

High-Performance Surveillance

This digital color CCD IP camera is engineered for professional surveillance and monitoring applications. It features a robust enclosure suitable for deployment in various environments, ensuring reliability and durability. With its standard lens mount, it offers versatile lens options to meet specific field-of-view requirements for effective security monitoring.

Technical Specifications

Connectivity

IP Camera • CCTV

Key Performance Metrics

16 mm

Focal Length

Sensor Type	Digital Color CCD
Sensor Size	1/3"
Lens Focal Length	16 mm
