

Digital Display Distance Measuring Wheel

This electronic digital display distance measuring wheel is designed for accurate distance measurement. It features a durable wheel with a digital display showing real-time measurements and a telescopic handle for comfortable use and easy storage.

Overview

Precision Measurement Solution

This electronic digital display distance measuring wheel is engineered for high-accuracy distance tracking in professional environments. Featuring a durable wheel and an intuitive digital display, it provides real-time measurement feedback for immediate results. Designed with a telescopic handle, the device ensures operator comfort during extended use and allows for compact, convenient storage between jobs.

Key Features

Design Highlights

- Real-time digital distance readout
- Telescopic handle for adjustable height
- Compact design for easy storage
- Durable wheel construction for various terrains

Display Technology

Electronic Digital Display

Ideal Applications

Surveying, Construction, Landscaping, Civil Engineering
