

Digital Door Lock with Keypad and Biometric Access

This smart door lock features a sleek, modern design with multiple access methods. It incorporates a robust deadbolt mechanism and a user-friendly interface for easy programming and operation.

Product Overview

Smart Access Control Solution

This advanced smart door lock provides a sophisticated blend of security and convenience for both residential and commercial environments. Featuring a sleek, matte black finish, the unit integrates a high-precision biometric fingerprint scanner, a responsive numeric keypad, and a traditional key override. It is engineered with a robust deadbolt mechanism and a comfortable lever handle to ensure reliable daily performance and enhanced building security.
