

Digital FM Clock Radio with Projector

This digital device combines a clock, FM radio, and projector into one versatile unit. It features an LCD display showing the time, date, and radio frequency, and the built-in projector casts the time onto a wall or ceiling.

Product Overview

Versatile Bedside Companion

This digital clock radio is designed for convenience and functionality, making it an ideal addition to any bedside table. It combines timekeeping, FM radio, and projection capabilities into one compact device. With clear digital tuning and intuitive alarm features, it ensures you stay on schedule while providing entertainment.
