

Digital Gas Flow Meter

This gas meter is designed for measuring the volume of gas flow. The meter features a digital display for easy reading and provides accurate measurements.

Product Overview

High-Precision Digital Gas Flow Measurement

The SG-J1-1.6R digital gas meter is engineered for precise volumetric measurement of gas flow. With a focus on accuracy and readability, it features a clear digital display suited for professional gas distribution monitoring. This device is built to handle flow rates ranging from 0.04 to 1.6 cubic meters per hour, making it an essential component for efficient flow management systems.

Technical Specifications

Minimum Flow Rate	0.04 m ³ /h
Maximum Flow Rate	1.6 m ³ /h
Maximum Pressure	5 kPa
Model Identification	SG-J1-1.6R

Features

Core Features

- Digital display interface
- High accuracy measurement
- Compact design for standard integration

Compliance

Country of Origin

China
