

Digital Golf Rangefinder with Pinseeker

This digital golf rangefinder measures distances from 5 to 600 meters. It features pinseeker technology for accurate target acquisition.

Overview

Precision Distance Measurement

The Digital Golf Rangefinder is a professional-grade optical instrument engineered for precision target acquisition on the course. Utilizing advanced Pinseeker technology, it enables golfers to accurately gauge distances to flags and hazards up to 600 meters away. Its ergonomic design ensures comfort during extended play, while the compact build offers exceptional portability for every golfer.
