Product Overview

Award-winning design for modern interiors.

Smart HVAC Control

This digital LCD thermostat provides precise temperature regulation for residential heating and cooling systems. Featuring an intuitive touch-in-interface and modern design, it allows for easy mode selection, fan speed adjustment, and programmable temperature settings. With integrated smart features, users can enjoy remote control capabilities, voice assistant compatibility, and efficient climate management for a comfortable indoor environment.

Technical Specifications

Color	White/Silver	Accuracy	±1°C
Screen	LCD	Size	86*86*13mm
Language	English	Output	5A /220VAC
Input	220VAC±10% 50/60HZ	Power Cons	≤1.7KWh/Month
Sensor	NTC 10K B:3950	Temp Range	5-35°C

Core technical specifications and dimensions.

Tech-Specs

Color: White / Silver
Screen: LCD
Language: English
Input: 220VAC±10%/50/60HZ
Sensor: NTC 10K B:3950
Temp Range: 5-35°C

Accuracy: ±1°C
Size: 86*86*13 mm
Output: 5A/220VAC
Power Cons: ≤1.7 KWh/Month
APP: Android / iOS

 ● From left to right: Locking, Lock, Cloud Connection, WiFi Connection

Press 'M': Switch heating or cooling
 Press 'M': 'On' Press 'off' off
 Press 'A': Switch the speed

Press '←': Increase the temperature
 Press '→': Decrease the temperature
 Press '↻': Enter WiFi pairing mode

Interface guide: Screen and button functionality.

Power Input	220V AC ±10% (50/60Hz)
Sensor	NTC 10K B:3950
Temperature Range	5-35°C
Accuracy	±1°C
Output Rating	5A / 220V AC
Power Consumption	<1.7 KWh/Month

Physical Dimensions

Display	LCD
Dimensions	86 x 86 x 12mm
Available Colors	White, Silver

Smart Features

Make Your Thermostat More Smart

You can control the thermostat anywhere via the App, you can download the App from Apple Store and Google Play.

- Remote Control**
Use the phone App/Real-time control equipment
- Work With Amazon Alexa**
With Amazon Echo hands-free control
- Family Member Management**
Can be invited or accepted become a family member
- Equipment Sharing**
Accept or initiate equipment sharing
- Residential Management**
App can add / manage the residential
- Easy And Fast Installation**
Following the guide to complete the self-installation

Smart connectivity and remote management features.

Voice Control

Multi-platform seamless integration, intelligent linkage with Amazon Alexa, Google Home, Tmall Elf and other voice assistants, easy to manage home devices, create an intelligent scene for you, make life easier.

Multiple Operating Modes Smart Control

You can control your products in group, or smart scenes via the App. It's easy to use. Get your location and automation control the device base on the local environment.

Multi-platform smart home integration.

Compatible Platforms

Amazon Alexa • Google Home • Tmall Elf • Android • iOS

Connectivity

Wi-Fi, App Control, Voice Assistant Compatible
