

# Digital Luggage Scale with Overweight Indicator

This digital luggage scale is powered by AAA batteries. It is designed to comply with IATA regulations for convenient travel.

## Product Overview

### Compact Precision Weighing

This high-precision digital luggage scale offers a compact and streamlined design, perfect for travelers requiring reliability on the go. Featuring a durable stainless steel platform and a reinforced belt, it is engineered for both longevity and ease of use. The intuitive target value setting function provides immediate feedback with a red backlight indicator if luggage exceeds your set limit, ensuring compliance with airline regulations.

## Technical Specifications

Maximum Capacity	50 kg
Power Source	AAA Batteries
Model Number	EL960H

## Features

### Core Features

- Stainless steel platform
- Target weight setting function
- Overweight red backlight indicator
- Reinforced carrying belt
- Streamlined ergonomic design

## Compliance

Compliance & Standards	IATA Compliant, Design Patent Registered
