

Digital Mini MMA Welding Machine

This is a compact and versatile welding machine designed for MMA (Manual Metal Arc) welding, also known as stick welding. The digital mini welding machine offers multiple functions, including adjustable current and arc force and VRD for enhanced safety.

Product Overview

Versatile Digital Mini MMA Welder

This compact digital MMA welding machine is engineered for precision and efficiency across a wide range of industrial applications. It features advanced waveform control technology to minimize spatter and ensure high-quality, beautiful welds on materials like carbon steel, low alloy steel, and stainless steel. Designed for both field work and shop use, it offers significant energy savings and user-friendly controls for professional-grade performance.

Technical Performance

Energy Metrics

100 W

No-load Consumption

50 %

Energy Savings

Welding Capabilities

Key Functions

Anti-sticking • LIFT TIG Support • VRD Safety • Adjustable Arc Force

Supported Electrode Diameters

- 2.0mm
- 3.2mm

Compatible Materials

Carbon Steel, Low Alloy Steel, Stainless Steel

Applications

Supported Industries

- Pipeline Construction
- Automotive
- Shipbuilding
- Boiler Manufacturing
- Power Construction
- Nuclear Power
- Industrial Installation
- Bridge Construction
