Product Overview

Digital LCD Motorcycle Instrument Cluster

This advanced digital LCD speedometer is designed for modern motorcycles, offering a comprehensive suite of vehicle data in a compact, readable format. It integrates essential metrics including speed, engine RPM, fuel levels, and critical system indicators like ABS and engine checks. Engineered for stability and reliability, this instrument panel provides a high-performance solution for riders seeking clear, real-time vehicle diagnostics.

Display & Metrics

Speed Range

160 km/h
Max Speed

Tachometer Range

10 x1000r/min
Max RPM

Available Indicators

- Speedometer (km/h)
- Tachometer (x1000r/min)
- Odometer
- Trip Meter
- Fuel Level
- Battery Voltage
- Engine Temperature
- Time

System Alerts

Warning Indicators

ABS, Engine Check, Headlight Status, Turn Signals
