

# Digital Programmable Timer Switch

This digital programmable timer switch is designed for automating electrical appliances. It features a digital display for programming and monitoring timer settings, ideal for controlling lights, fans, and other equipment.

## Product Overview

### Automated Control Solution

The TS-EB1 is a versatile digital programmable timer switch engineered to automate the operation of electrical appliances. By allowing users to precisely set on/off schedules, it enhances convenience and promotes significant energy savings. This compact device is ideal for managing the power cycles of lights, fans, and various other household or office equipment.

## Technical Specifications

Model Number	TS-EB1
Programming Type	Digital
Key Functions	Automated Scheduling, Energy Saving, Programmable On/Off

## Installation & Use

### Compatible Devices

- Lighting
- Fans
- Household Appliances
- Office Equipment

Installation	Plug-in
