

# Digital Smart Humidifier with Temperature Display

This smart humidifier adds moisture to improve air quality. It features a digital display showing humidity and temperature levels, along with multiple modes including sleep mode, humidity control, and a timer function.

## ADDITIONAL IMAGES

## Product Overview

### Advanced Climate Control

This Digital Smart Humidifier is designed to optimize indoor air quality through precise moisture regulation and temperature monitoring. Featuring both cool and warm mist options via PTC heating, it adapts to various environmental needs. With intelligent modes including auto, night, health, and baby settings, it provides a tailored experience for homes and professional offices.

## Technical Specifications

Power Supply	100V-120V or 220V-240V, ~50/60Hz
Consumption Power	30W / 110W
Noise Level	35 dB
Water Tank Capacity	5 L
Max Evaporation Rate	400ml/h +/-50ml/h

## Key Features

### Mist Control

- Cool mist
- Warm mist (PTC heating)
- 7-speed sliding adjustment

### Operation Modes

Auto Mode, Night Mode, Health Mode, Baby Mode

## Safety & Intelligence

### Safety Protections

Auto-stop on low water • Auto-stop on tank removal

### Smart Functions

- Automatic humidity control
- 12-hour timer setting
- Plasma function
- Cation exchange resin filter

## Interface

### Control Interface

- LED digital display
- Touch panel
- Remote control included
