

Digital Solar Powered Bathroom Scale

This digital bathroom scale is designed for personal weight measurement. The scale is solar powered and features a clear glass platform with a digital display, providing accurate weight readings for health and fitness monitoring.

Product Overview

Eco-Friendly Precision Monitoring

The CW230 digital bathroom scale combines modern aesthetics with sustainable technology. Powered by solar energy, this scale eliminates the need for battery replacements, promoting an environmentally friendly lifestyle. It features a clear glass platform and a digital display, providing accurate weight measurements for daily health and fitness tracking.
