

# Digital Table and Stand Fan with DC Motor

This 12-inch digital fan is designed for both table and stand use. The DC motor ensures energy-efficient and quiet operation with adjustable height.

## Overview

### Versatile Cooling Solution

This 12-inch digital fan is engineered for maximum versatility, functioning seamlessly as both a table and stand fan. Equipped with an energy-efficient DC motor, it delivers quiet operation while providing powerful airflow through its 7-blade design. The adjustable height and intuitive digital control panel make it an ideal cooling solution for various professional and home environments.

## Technical Specifications

### Power Consumption

**18 W**  
Power

Input Voltage	24 V
Wind Speed Levels	8
Blade Count	7

## Features

Control Options	Remote Control, Digital Control Panel
Timer Function	24-hour programmable timer

## Design

### Orientation

Table Fan • Stand Fan

Color	White with grey center
