

Digital Terrestrial TV Receiver

This digital terrestrial TV receiver is designed for receiving and decoding digital television signals. It supports USB connectivity for media playback and recording, an electronic program guide (EPG), and parental control options.

Product Overview

Digital Terrestrial Receiver

The DVT-3601 is a compact digital terrestrial receiver designed for high-quality signal decoding. It features Free-to-air (FTA) compatibility and supports MHEG-5, making it an ideal solution for European and UK markets. With its standard definition MPEG-2 decoding and versatile output options, it provides a reliable foundation for home entertainment systems.

Technical Specifications

Model Number	DVT-3601
Compatibility	DVB-S, MPEG-2, FTA, MHEG-5
Decoding Standard	Standard Definition MPEG-2

Connectivity & Design

Outputs

- 1 SCART (or RCA)
- SPDIF coaxial output

Housing Width	180 mm
Housing Material	Plastic

Features

Software Upgradeable	Yes
