

Digital Torque Meter

This digital torque meter provides high-precision measurements for different applications. Available models include HP-10, HP-50, and HP-100, each with varying measuring ranges and an accuracy of $\pm 0.5\%$.

规格型号 Model No.	HP-10	HP-50	HP-100
测量范围 Measuring Range	0.10-10.00kgf.cm	1.0-50.0kgf.cm	1.5-100.0kgf.cm
测量范围 Measuring Range	0.015-1.000N.m	0.10-5.00N.m	0.15-10.00N.m
测量范围 Measuring Range	0.15-9.0Lbf.in	0.5-45.0Lbf.in	1.5-90.0Lbf.in
精度 Accuracy	$\pm 0.5\%$		

Overview

High-Precision Digital Torque Measurement

This digital torque meter is designed for high-precision measurement across various industrial applications. It offers reliable performance with an accuracy rating of $\pm 0.5\%$, ensuring consistent results for quality control and testing. The device is available in three distinct model configurations to cover a wide range of torque requirements.
