

Digital TV Set-Top Box with DVB-T and USB

This set-top box receives and decodes digital terrestrial television broadcasts. It supports DVB-T, USB media playback, and both standard and high-definition video output.

Product Overview

Professional Digital Terrestrial Receiver

This high-definition digital TV set-top box provides reliable terrestrial broadcast reception, supporting the latest DVB-T2 standards. It features advanced video decoding capabilities and diverse connectivity options, including HDMI and component outputs, to deliver clear image quality across various display types. With built-in media playback support via USB and a comprehensive EPG, this unit serves as a versatile entertainment hub for professional installations.
