## Product Overview

### Precision Ultrasonic Measurement

The Digital Ultrasonic Distance Measurer is a versatile handheld tool designed for accurate distance, area, and volume calculations. Utilizing ultrasonic technology, it provides reliable measurements for construction, real estate, and interior design applications. Its compact, lightweight design ensures portability while the intuitive interface allows for quick mode selection and easy data reading.

## Measurement Performance

Measurement Range	15 m
Resolution	0.01 m
Accuracy	±(0.5%+1 digit) (in still air)

## Calculation Capabilities

### Maximum Calculation Capacities

**300 m**

Max Length

**225 m<sup>2</sup>**

Max Area

**3375 m<sup>3</sup>**

Max Volume

## Technical Specifications

Power Supply	9V (6F22) battery
Operating Temperature	0°C to 50°C
Storage Temperature	-10°C to 60°C
