

# Digital Ultrasonic Parts Cleaner

This digital ultrasonic cleaner utilizes high-frequency sound waves to create cavitation bubbles in a cleaning solution. It effectively removes dirt, grime, and contaminants from the surface of objects.

## Product Overview

### Professional Ultrasonic Cleaning Technology

This digital ultrasonic cleaner utilizes advanced sound wave cavitation to effectively remove dirt and contaminants from a variety of delicate items. Engineered with a user-friendly microcomputer control system, it offers precise cleaning durations and automatic protection functions. The unit's tight superstructure is specifically designed to minimize operational noise, making it suitable for both professional and home environments.

## Technical Specifications

Default Cleaning Time	180 seconds
Control System	Microcomputer control with countdown display

## Applications

### Suitable Items

- CD, VCD, and DVD discs
- Jewelry and Watches
- Eyewear and Sunglasses
- Coins
- Dentures
- Personal grooming tools

## Features

Key Benefits	Tap water compatible, Noise reduction design, Automatic protection, Digital display
